

ملحق رقم (١): المواصفات

1. The solution must support the backup for the following Operating System (backup agent must be compatible to install in those OS's):

- Windows Server 2012, 2012 R2, 2016, 2019, and 2022.
- Linux OS

OS distribution	OS version
Debian	10x – above
CentOS	7x – above
Rocky	9x – above
Ubuntu Server	22x – above

- Unix (AIX) with OS version 7x – above (Can use File System at least)

2. The solution must support online (Cloud) backup and guarantee restore for the following:

- Microsoft Active Directory
- Oracle on Windows Server, Linux OS, AIX
- VMware VM, Hyper-V VM, Citrix VM, Oracle VM, Nutanix VM.
- File Servers (NAS, SAN, etc)

3. Reliable backup & recovery (on-premises and cloud) for Physical servers and Virtual servers

- Full VM backup, VM file, virtual disk and guest OS file backup and restore
- Support incremental backup and differential backup.
- Supports backup to local storages with minimum size of 6TB.
- Supports backup to cloud storage with minimum size of 2TB (recommended 4TB).

4. Full Installation and configuration for the solution based on the university requirements.

5. Full training in the solution (at least 2 employee)
